We were correct when we said a while since that we did not intend having dull January and February business. To be sure there is no profit, in fact in many instances there are losses on our sales; but we have always had a great weakness to close out one season's stock be-fore the next season comes in, hence

our stock is always fresh and new. There still must be a good many people who have not availed them-selves of securing "our kind" of

What an excellent opportunity now to buy a Stein-Bloch or Adder-nit, medium weight, one that you can wear nine months out of the twelve, and buy it for less money than you buy ordinary goods for.

We will be benefited in turning these goods into money, but you will be vastly more benefited in Out Shopping buying them. Were we addicted to foke adventising the dicted to fake advertising that so many clothing men resort to, viz, the fellows who advertise \$10 suits for \$3.98, we would embellish more. "BUTTON, button;" who's got that diamond?" The statistics show that there's just one in Mason county.

THE Assessor reports only 3,425 THE Assessor reports only 3,420 legal voters in Mason county; and yet in last November 5,404 votes were cast for Congressman. Of course, "figures don't lie;" but where did "them" 1,979 extra votes come from?

According to an official report ACCORDING to an official report printed in our esteemed contemporary. The Evening Bulletin, there are in Mason county only 3,254 males over 21 years of age, while the same report says there are 3,425 legal voters in the county—or 171 more voters than there are persons of voting age. Can some one explain this in a manner that will explain it?

SOME of the Goebelite papers, even. mourn the fact that railroad building has ceased in Kentucky. Well, it has been the policy adopted by Gornat, and followed by his adherents, that of muleting railroad companies in unjust damage suits and swamping them with taxation on ficitisus "franchise" values, that has driven that class of investment out of the state. You are the very fellows who are to blance; and railes, you factor, you return your steps and unless you retrace your steps and insure the same fairness toward rail-roads in Kentneky that they receive in other states, there'll be no more roads built here.
